I have a unix timestamp like 1454922296 and this represents a date like this Fri Feb 12 2013 11:56:36 GMT+0100 (London, UK). How do I convert it to DateTime object in C#.NET? I am trying this but it throws an exception: DateTime date = DateTime.Parse(unixTimeStamp); What is the best way to get it? A: You have two options: Parse the string manually (you'll have to read the reference): string input = "1454922296"; DateTime date = DateTime.ParseExact(input,
